

## Programme: Animal Health Surveillance 2.0

24 March 2015, Het Pand, Ghent, Belgium

|                  |   |   |
|------------------|---|---|
| 08.00-09.00      | Registration  |   |
| 9.00-09.15       | Welcome and objectives  | Dirk Pfeiffer                                     |
| <b>Session 1</b> | Chair: Dirk Pfeiffer, RVC   |   |
| 09.15-10.00      | Science-based policy making in the field of animal health surveillance – what does the landscape look like?   | Laszlo Kuster, DG-Sanco                           |
| 10.00-10.30      | Coffee  |   |
| <b>Session 2</b> | Chair: Ann Lindberg, SVA and Marisa Peyre, CIRAD  |   |
| 10.30-10.50      | Mapping of surveillance and livestock systems, infrastructure, trade flows and decision-making processes: Gaps and opportunities for improvements in surveillance.  | Betty Bisdorff, RVC                               |
| 10.50-11.10      | Towards a harmonized and transparent way to describe surveillance activities to enable output-based standards for surveillance: Lessons learned in terms of information availability, transparency, standardised surveillance description, and terminology. | Birgit Schauer, FLI<br>Arianna Comin, SVA         |
| 11.10-11.30      | The RISKSUR framework for structured design and documentation of surveillance activities.   | Fernanda Dórea, SVA                               |
| 11.30-11.45      | Getting more from passive surveillance: an example applying the RISKSUR framework to avian influenza in the UK  | Lucy Snow, APHA                                   |
| 11.45-12.00      | Tools to improve the performance of African swine fever surveillance in free countries  | Marta Martinez Aviles, UCM                        |
| 12.00 -13.00     | Lunch   |   |
| <b>Session 3</b> | Chair: Lucy Snow, APHA and Christoph Staubach, FLI  |   |
| 13.00-13.20      | Challenges behind the evaluation of animal health surveillance and control strategies   | Daniel Traon, Arcadia<br>Marisa Peyre, CIRAD      |
| 13.20-13.40      | The RISKSUR EVA tool – a practical guidance to the development of an evaluation protocol  | Marisa Peyre, CIRAD                               |
| 13.40-14.00      | The value of animal health information: the economic evaluation challenge   | Barbara Häsler, RVC<br>Alexis Delabouglise, CIRAD |
| 14.00-14.45      | From surveillance to action – towards output based standards for disease control.   | Christine Fourichon,<br>BioEpAR, Oniris-Nantes    |
| 14.45-15.10      | Coffee  |   |
| <b>Session 4</b> | Chair: Ulrich Sperling, SAFOSO  |   |
| 15.10-16.20      | Round table discussions* – AHS 2.0 – how do we move into the new era?   |   |
| 16.20-17.20      | Feedback from the discussions   | Invited rapporteurs                               |
| 17.20-17.30      | Summary and conclusions   | Dirk Pfeiffer                                     |

\* To be conducted in a World Café format: <http://www.theworldcafe.com/principles.html>
